Does Your Plan Offer Enough Coverage?

AmeriCorps members have limited funds and The Corps Network Plan is designed to protect them. We examined several years of claims data specific to AmeriCorps members covered under The Corps Network Plan and found:

- **Essential Health Benefits (EHB)** should be unlimited - Over 90% of claims paid are EHB.
- **Benefits** should be based on the cost of care rather than a flat dollar benefit.
Average costs for common or key services:
 - Hospital Stay - Over \$9,500
 - Outpatient Surgery - Over \$6,000
 - Office Visit - \$139
 - Diagnostic Testing - Between \$280 and \$457
- **Low Cost Sharing** - 87.8% of enrollees have paid claims. Almost 17% of claims were between \$500 and \$50,000.

The Corps Network Plan is designed to cover the real cost of care and protect a member's living allowance while they are serving their term.
